

“WORKING IN HARMONY FOR HOME & HEARTH”

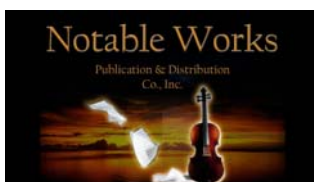

Notable Works Publication & Distribution Co., Inc. in partnership with South County Habitat for Humanity will address, through the Arts, the issues of substandard housing and homelessness and illustrate ways in which communities can pitch in to make a positive difference. This project, which involves publishing and distributing a compilation CD of original music and poetry by local artists, will culminate in a University Artist Series Concert during the Fall of 2008, co-sponsored by the University of Rhode Island Music Department.
